THE PRINTING PLANT

# Thermal Printers and Ribbons

Over recent years we have expanded our range of thermal printers to include the TEC B852 and Citizen CLP8301 thermal transfer printers.

Thermal printers offer a more economical solution for producing BS5609 (immersion in Sea Water) compliant labels than laser printer variants.

## Thermal Printer

- Economical Label Substrates
- Wide range of Substrate performance
- Wide range of adhesives (removable through to BS 5609 compliant)
- Die cut labels on a reel or fan-folded

## Laser Printer

- Expensive Label Substrates
- Limited range of substrate performance
- One adhesive (BS5609 compliant)
- Single Sheets

We provide a one-stop shop for thermal printers, which includes the following popular types;

**TEC 452** - a 4inch (105mm) wide printer, 300dpi resolution (*A good quality, small footprint, flat head technology printer*).

**Citizen CLP 8301** - an 8.6 inch (219.5mm) wide printer, 300dpi resolution (*Good range of functions and adjustments, Flat head technology - Highly recommended*).

**Citizen CLP 621** - A good entry level thermal printer with a 4 inch head. A well built printer at a very good price.

**TEC B852** - an 8.5inch (216mm) wide printer, 300 dpi resolution (*Well built, flat head technology printer*).

**TEC B882** - an 8.36inch (212mm) wide printer, 305 dpi resolution (*High quality, edge head technology printer for the highest quality print*).

Additional printers are available. If you don't see the printer you are interested in or would like some advice on the best printer for you contact Hibiscus on +44 (0) 113 242 4272 or email [enquiries@hibiscus-plc.com](mailto:enquiries@hibiscus-plc.com)

Tec and Citizen approved thermal printer ribbons are available ex-stock in either scratch less (resin) or lower grade smear less (wax/resin) finish.

## TEC Approved Thermal Ribbon Prices - (AS1 - Scratch less (Resin) - Gloss Materials) (AG2 - Smear less (Wax Resin) - Matt Materials)

Printer	Size	Grade	1 to 4	5 to 9	11 to 15
